FACTS TO BE NOTED

- ❖ Some animals like frogs, hens, crow, etc. lay eggs. The eggs are hatched. After some period of time babies come out of the eggs.
- ❖ Some animals like fish and a frog do not need to take care of their young ones.
- ❖ Cuckoo lays it's eggs in a crow's nest. The crow incubates the eggs.
- ❖ Some animals reproduce only one baby at a time.
- ❖ Some animals reproduce more than one baby at a time.
- ❖ Reproduce means producing babies.
- ❖ Hatch: to break in order to allow young animals to come out.
- ❖ Incubate: to sit on eggs to provide them heat.

Dream it, Bel
